

WILLIAMS

BR WILLIAMS LOGISTICS

We work with over 6500 contract carriers, allowing us to offer nationwide coverage and a full range of logistics services.

Our Logistics Division offers efficient access to flexible capacity.

- BR Williams world class customer service and dedicated account management
- Obtain quotes quickly and efficiently
- Online shipment portal for tracking and document retrieval
- GPS Tracking available on ALL truckload shipments
- Exception Management Alerts
- Instant LTL Quotes

Our Approach

We build relationships with like-minded carriers to give you the best experience. Our approach is to target consistent lanes and find 2-4 contract carriers to work with on those lanes. We do this because it encourages consistency in both our ability to move loads for our customers and the rates needed to offer the highest quality of service. .

Our Commitment

BR Williams' logistics services are unique in that we offer all the tools of larger 3PL companies but with the commitment to integrity and the customer service passion of a family owned company.

Our Standard

We do not operate with a traditional large scale brokerage business model that relies on a huge network but sacrifices quality. Our customers demand a higher standard and always strive to exceed that standard. We never oversell and ALWAYS keep our promises.
